## Our Story

In 2004, in Paris, Jeanne Chemla created La Galerie Jeanne Robillard: a French gallery dedicated to children's illustration. She directed the Gallery for 10 years, during which she devoted herself to promoting youth illustration with the setting up of more than 30 exhibitions-sales and a catalog of 50 traveling exhibitions for cultural institutions such as libraries, schools, book fairs.

In 2018, Jeanne created the Jolie Galerie in Sydney to continue to promote French illustration beyond its borders (exhibitions-sales, artistic workshops and conferences in the Alliances françaises).

In 2020 in Champagne, the Jolie Galerie extended its passion to the creation of tailor-made wall frescoes and the creation of illustrated decorations from original works: stickers, screens, Magic Wall.

In 2022 in South Africa, the Jolie Galerie is flourishing in Cape Town with workshops, meetings and artist residency projects (collective and traveling frescoes in different spaces for young people in difficulty).

Surrounded by a passionate and solid team, the Jolie Galerie illustrates everywhere the decor of libraries, hotels, offices, houses and social centers.
